- Kibana
- Grafana

DATABASES:

- MySQL
- MongoDB

Bootcamp

FRONTEND WEB DEVELOPMENT

📅 Dec 2022 📍 Remote

- Created a responsive Instagram clone using HTML and CSS, achieving a visually accurate layout and adaptable design for various screen sizes
- Project Link : <https://9r2inq.csb.app/>

HANDS ON CLOUD COMPUTING WITH AWS

📅 Feb 2023 📍 Remote

- Developed and hosted a Zomato clone using HTML and CSS on AWS S3, enabling accessible static website deployment.

Internship

JP MORGAN CHASE | Software Engineer Intern

📅 Jul 2023 – Aug 2023 | 1 Month 📍 Virtual Internship | Certificate: [\(Link\)](#)

- Developed a dynamic, auto-updating graph to visualize real-time data fetched from a server application using Python, TypeScript, and React.js.

POTENCIA ACADEMY | Web developer Intern

📅 Apr 2020 – Jul 2020 📍 Bathinda, Punjab | Certificate: [\(Link\)](#)

- Designed and developed an educational website using the MERN stack, integrating Bootstrap for responsive design, Email.js for email functionality, and Multer for handling client-side resume uploads.
- Link : <https://potencia-academy.vercel.app/>

SUVIDHA FOUNDATION | Web Developer Intern

📅 Jun 2022 – Jul 2022 | 1 Month 📍 Remote | Certificate : [\(Link\)](#)

- Had the opportunity to work collaboratively in a team environment with various tech stacks, including PHP, HTML, and CSS.

Experience

TELIOLABS COMMUNICATIONS

📅 Jan 2024 - Present 📍 Hybrid

- As a Junior Developer, I gained hands-on experience working with PHP, Perl, and JavaScript . I also contributed to data visualization and analytics by using Grafana and Kibana to create insightful dashboards and reports.

Recent Projects

FOOD FUSION | FULL STACK [\(Link\)](#)

- Developed a food ordering website with a React frontend, MongoDB Atlas as the database, and AWS as the cloud provider.
- Project Link : <https://abhishek7a.github.io/foodfusion/>

MOVIE TIME | MENR STACK [\(Link\)](#)

- Developed a movie ticket booking platform with a React.js frontend, styled using TailwindCSS, featuring real-time data rendering from an API and Razorpay integration for payments.
- Project Link : <https://abhishek7a.github.io/movieTime/>

LEGENDARY BOOK STORE | MERN STACK [\(Link\)](#)

- Developed a full-stack project with a React frontend and MongoDB Atlas as the backend database, featuring an intuitive search bar, bookmarking functionality, custom toast notifications.
- <https://abhishek7a.github.io/legendaryBookStore/>
